

WEDDING EXPERIENCE

2027–2028

LUX28

FAITHFULLY FRAMED. ETERNALLY LIT.

What comes *next.*

Every wedding begins with a decision to move forward.

Two people choose one another. They make promises. They gather the people who shaped them, step into something new, and begin building a life that did not exist before that moment.

That idea has become central to the way I see weddings. Lux28 was built around faith, family, purpose and the extraordinary possibility of what comes next.

My job is not simply to photograph what your wedding looked like.

It is to preserve what it meant.

DUSTIN LOPEZ

BEHIND THE CAMERA

Dustin Lopez

For years, Dustin has photographed people at some of the most meaningful moments of their lives.

Over time, faith became the foundation beneath everything: the way he approaches his life, his fatherhood, his relationships and his work.

His photography pairs confident direction with documentary observation. He knows when to create a portrait and when to disappear into a moment.

He believes a couple should look incredible without feeling as though their wedding became a photo shoot.

Intentional. Emotional. Sophisticated. Alive.

Presence *over* performance.

There are moments on a wedding day that deserve direction. There are others that should never be interrupted.

The Lux28 approach lives between those two ideas.

When a photograph needs to be built, I give you confident direction: composition, light, movement and perspective. When the moment is already happening, I step back.

The goal is never to manufacture your wedding for the camera. It is to make extraordinary photographs while you remain fully present inside the day.

Editorial when it should be.
Unscripted when it matters.

Some wedding stories do not fit neatly inside an eight-hour window.

The Lux28 Experience is designed for couples who want the entire story preserved: the anticipation, the gathering of families, the quiet moments before the ceremony, the celebration after dark, and the people who made the weekend meaningful.

This is not about watching the clock. It is about telling the story completely.

THE COMPLETE LUX28 STORY

The Iconic

A portrait experience inside the wedding experience.

The Iconic is the Lux28 signature: a studio-quality, black-and-white portrait environment built inside your reception.

Couples, family, the wedding party and guests are photographed individually or together in deliberate, sculpted light.

It is closer to a Vanity Fair portrait studio than a photo booth. Elegant, intentional and timeless: a portrait of everyone who was there when it all began.

AVAILABLE AS A LUX28 ENHANCEMENT

HEIRLOOMS

Made to outlive *the screen.*

Digital photographs are wonderfully immediate. But some images deserve permanence.

Lux28 heirloom albums are designed to become part of your family, not something that disappears into a camera roll or a cloud folder.

Years from now, these photographs should still be held, shared and passed forward.

HEIRLOOM ALBUMS AVAILABLE

Album options are presented during the planning process. A premium heirloom album is included in The Lux28 Experience.
